Advantages of the compressors

- Portable
- Full-automatic operation with pressure switch
- Almost soundless working. So practicable to use directly at workstation
- 10 years warranty on the vessel against rusting through

Product details

- Directly flanged aggregate
- 1 cylinder
- All safety fittings and power cable with plug as standard
- Compressed air vessel equipped with safety valve, vessel pressure gauge and condensate drain valve
- Low noise because of special sound insulation
- Air outlet with quick connector for simple connection of compressed air tools
- Fittings module with filter pressure regulator for directed compressed air which is free from condensate, dirt and oil
- Pressure gauge for metering working pressure
- Excellently suited for airbrush workings
- With pressure relief for load-free start-up (SEM 50)
- With special head for lower working temperatures and thus extreme low rest oil rate (SEM 50)
